INTEGRATIONS

Microsoft Office integration, including Office 2019, via ribbon icons	✓	✓		*
Does not require Microsoft Office to be installed to clean	✓	✓	✓	✓
DMS Desktop integration with:		✓		*
iManage Filesite/Desksite		✓		
iManage Work 10		✓		
NetDocuments (ndOffice)		✓		
OpenText eDOCS DM		✓		
HighQ		✓		
Enforces policies of iManage Security Policy Manager		✓	✓	

DEPLOYMENT

Easy to deploy and configure	✓	✓	✓	✓
Configuration Manager for quick central configuration and deployment	✓	✓	✓	**
Unified approach to metadata cleaning	✓	✓	✓	✓
Clean and easy to use UI				
Citrix compatible	✓	✓		✓
Supports 32 and 64-bit operating system	✓	✓	✓	✓

* cleanDocs SDK supports developers creating apps that do this, however the SDK doesn't offer this functionality directly.

** cleanDocs SDK readme documentation recommends developers download a copy of cleanDocs and use its Configuration Manager to create policies to use with the SDK.

cleanDocs removes metadata at sub-second speeds

cleanDocs removes metadata from documents at sub-second speeds thanks to binary-level and multithread processing. Below are samples of cleanDocs speed.

cleanDocs SDK requires developers to use multiple threads to achieve parallel processing, as indicated by the 4x simple and 4x complex benchmarks below.

MS WORD DOCUMENT	cleanDocs
Simple 10-page document	0.43 s
Simple 100-page document	0.49 s
Complex 10-page document	0.6 s
Complex 100-page document	1.57 s
4 x simple 10-page documents	0.99 s
4 x complex 10-page documents	1.38 s
